

How to Find Your Computer Name

(2 methods)

Before Log On:

From the log on screen select “**How do I log on to another domain?**”

The computer name will be shown in the box that pops up. It should start with an abbreviation for the school you are located at. (Ex. ECC, AES, CMS, CHS etc.)

Already Logged on:

From your desktop select the Start button in the lower left hand corner.

Select “Computer” from the list.

On the screen that pops up, your computer name will be displayed in the lower left hand corner. It should start with an abbreviation for the school you are located at. (Ex. ECC, AES, CMS, CHS etc.)
